Subject: Amendment C12 - Former Dairy Crest Site

As a resident of Totnes, I would like to express my support for amendment C12 proposed for the Neighbourhood Plan. It embodies objectives for the former Dairy Crest site which were arrived at by extensive public consultation and ratified by a vote on a Community Right to Build Order in 2017. It is right that the principles which emerged during that process should be maintained and enforced for any development that takes place on the site.

Thanks and regards
