Hi

I would like to lodge the following comment to the Dartmouth Neighbourhood plan on behalf of the Trustees of the Dartmouth Trust

Regarding the proposed designation of Local Green Spaces in relation to land at Jawbones Hill (LGS6) and Crosby Meadow LGS15 (both owned by The Dartmouth Trust) Trustees remain unable to give their support to the proposal as the Trust's primary purpose as set out in its Charity's Scheme is to generate the best income obtainable from its investments and to distribute the net proceeds to its 3 named beneficiaries who themselves perform charitable acts for the town with the money they receive.

Please acknowledge receipt of this comment
Kind Regards
